Portfolio investments are investments in the form of a group (portfolio) of assets, including transactions in equity securities, such as common stock, and debt securities, such as banknotes, bonds, and debentures.. Portfolio investments are passive investments, as they do not entail active management or control of the issuing company. The foreign investors have a relatively short-term interest ... International Business :

Strategy, Management, and the New ... - Foreign market

entry modes or participation strategies differ in the

degree of risk they present, the control and commitment

of resources they require, and the return on investment they promise..

There are two major types of market entry modes:

equity and non-equity modes. The non-equity

modes category includes export and contractual

agreements. The equity modes category includes:

joint ... Foreign market entry modes - Wikipedia -
