SHOTSHELL

RELOADING DATA -

uncledavesenterprise.com -

Handloading or reloading is

the process of loading

firearm cartridges or

shotgun shells by

assembling the individual

components (case/hull,

primer, powder, and

bullet/shot), rather than

purchasing completely

assembled, factory-loaded

ammunition. The term

handloading is the more

general term, as it refers to

assembly of ammunition

using components from any

source. Handloading -
