

# principle of programming languages 4th pratt solution

Tue, 19 Feb 2019 04:02:00

GMT principle of programming languages 4th pdf - In object oriented programming languages, encapsulation is used to refer to one of two related but distinct notions, and sometimes to the combination thereof: . A language mechanism for restricting direct access to some of the object's components.; A language construct that facilitates the bundling of data with the methods (or other functions) operating on that data.
